SUMMARY

Dedicated 19-year-old BCA student with a deep curiosity for computing and technology. I build intuitive, visually compelling web applications and solid software foundations using HTML, CSS, JavaScript, C and Java. My goal is to bridge aesthetic UI/UX design and practical back-end logic, delivering software that is performant, user-friendly and visually polished.

EDUCATION

Bachelor of Computer Applications (BCA), Vishwa Adarsha College

Present

Currently in 2nd semester. Core subjects: Data Structures, Programming in C and Java, Object-Oriented Principles, Web Development Basics.

SKILLS

- **Web:** HTML5, CSS3, JavaScript (ES6+), Responsive Web Design
- **Programming:** C, Java (Object-Oriented Programming)
- **Design:** UI/UX and Wireframing, Prototyping, Figma (Auto Layout, Components)

PROJECTS

- **Password Generator** ([live demo](#), [source](#)): HTML, CSS, JavaScript. Easy, Medium and Strong presets, adjustable length, strength meter and one-click copy, using the browser secure random generator.
- **Imagen Studio, AI Image Generator** ([live demo](#), [source](#)): HTML, CSS, JavaScript with the Hugging Face Inference API. Choose model, aspect ratio and image count, then download results.
- **Student Portal and Dashboard UI** (Figma concept): split-screen desktop login, course progress cards, notices feed and matching mobile views.
- **UI/UX Learning Mobile App** (Figma concept): lessons, quiz flows, selection states and profile achievement badges.
- **Health and Habit Tracking Prototype** (Figma concept): 15+ screen flow covering OTP login, health metrics, macro counters and water goal tracking.
- **Football Fan App UI** (Figma concept): team selection, jersey checkout, live activities feed and player news.

STRENGTHS AND INTERESTS

Strengths

- Quick learner and adaptable
- Problem solving and logical thinking
- Attention to detail in code and UI
- Creative UI/UX design sense
- Team collaboration and communication

Interests

Web development, UI/UX interface design, software engineering, mobile apps, front-end architecture.

Hobbies

Tech innovations, coding challenges, visual design, gaming.
